

Let yourself be inspired by the winter landscape and create a rather unusual but **beautiful home art** - an **ice mandala**. It's easy to make and it will look amazing in your garden.

How to Make an Ice Mandala

You will need just a few ingredients:

- circular baking pan
- rope / string
- water
- berries, evergreen leaves or petals

How to Create Your Ice Mandala

1. Fill the circular baking pan with water.
2. Tape the rope / string to one side of the pan.
3. Place the berries, leaves or petals inside.
4. Leave the pan outside, so nature can do its work or place carefully in your freezer.
5. When the water freezes, you can hang the ice mandala on a tree, your door or front porch and enjoy its beauty.

Another lovely idea is to freeze a **lace napkin**, which will look like a captured giant snowflake.
