Procedures

Admissions

- We do not discriminate against a child or their family, or prevent entry to our setting, on the basis of colour, ethnicity, religion or social background.
- We do not discriminate against a child with a disability or refuse a child entry to our setting for reason relating to disability if we can meet the needs of the child (please see the whole school Accessibility Plan).

Training

- We review our practices to ensure that we are fully implementing our policy for promoting equality, valuing diversity and inclusion.
- We provide training opportunities for staff and volunteers to enable them to develop inclusive practices, which enable all children to flourish.
- We ensure that staff are confident and fully trained in administering relevant medicines and care procedures when these are required.

Curriculum

The curriculum offered in the setting encourages children to develop positive attitudes about themselves as well as to people who are different from themselves. It encourages children to empathise with others and to begin to develop the skills of critical thinking.

We do this by:

- making children feel valued and good about themselves.
- ensuring that children have equality of access to learning.
- making reasonable adjustments to the environment and resources to accommodate a range of learning, physical and sensory impairments.
- making appropriate provision within the curriculum to ensure each child receives the widest possible opportunity to develop their skills and abilities.
- positively reflecting the widest possible range of communities in the choice of resources.
- avoiding stereotypes or derogatory images in the selection of books or other visual materials.
- celebrating a wide range of festivals including those from different cultures.
- creating an environment of mutual respect and tolerance.
- differentiating the curriculum to meet children's special educational needs.
- helping children to understand that discriminatory behaviour and remarks are hurtful and unacceptable.
- ensuring that the curriculum offered is as inclusive as is reasonably possible for children with special educational needs and children with disabilities.
- ensuring that children learning English as an additional language have access to the curriculum and are supported in their learning.

Valuing diversity in families

- We welcome the diversity of family lifestyles and work with all families.
- We encourage children to contribute stories of their everyday life to the setting.
- We encourage parents/carers to take part in the life of the setting and to contribute fully.
- For families who do not have English as their first language, we will develop means to ensure their full inclusion if required.

Food

- We work in partnership with parents to ensure that the medical, cultural and dietary needs of children are met.
- We help children to learn about a range of food, and of cultural approaches to mealtimes and eating, and to respect the differences among them.

Monitoring and reviewing

- To ensure our policies and procedures remain effective we will monitor and review them annually to ensure our strategies meets the overall aims to promote equality, inclusion and valuing diversity.
